

Otuboi

Otuboi is on the road between Lira and Sironko and we have visited there twice in the past year. Pastor Charles was in Jinja and has moved there to work with other pastors. They tell us we are in Dokolo but the road from the main road starts in Otuboi and is 11 km for the main road to the church. You can see Pastor Charles in the first photo and the other senior pastor in the second (blue shirt) and the senior pastor's wife in the green and yellow dress. This all works with the vision to take the gospel to the remote areas and to encourage the churches which work in those areas.
