

RHINO CAMP

Rhino Camp is north–west of Arua in the far North West of Uganda and housed 40,000_ refugees from Southern Sudan, among the 2 1/2 million refugees. Malish was a pastor there with whom we worked among others. 2 visits with all the churches coming together and breaking of bread together on the final Sunday. Wonderful people enduring such hardship. Lady had eyesight healed and older lady heart problems with breathing and then her walking. Dancing as we left, with her hands in the air.

500 km each way to Arua from Kampala.
